LocumTenens.com conducted its Annual Compensation and Employment Survey in the later part of 2014. Survey respondents represent physicians who practice on a locum tenens basis as well as those with permanent salaries.

In this year’s Your Voice Matters section, we asked physicians to weigh in on quality outcome metrics, patient satisfaction and how new measurements may impact their compensation.

This report includes compensation and employment statistics for the field of anesthesiology.

Respondent Demographics:

At a glance

84% board certified; 13% board eligible
84% male; 16% female
37% hospital employed; 25% group practice
34% have worked on a locum tenens basis
58% have not but may consider locum tenens in the future

2014 average annual anesthesiologist salary: $338,174

We asked anesthesiologists, “considering your career, if you had to do it over again, what would you do differently?”

LocumTenens.com 2014 Compensation and Employment Survey — Anesthesiology 800.562.8663

LocumTenens.com 2014 Compensation and Employment Survey — Anesthesiology 800.562.8663
We asked physicians to give us their perspectives on quality outcome metrics and patient satisfaction, ratings and how those things are impacting their competition.

**Physicians indicated if their compensation had been re-structured to be weighted by quality patient outcomes**

Physician Opinions on Reimbursement Based on Quality Outcomes Instead of Patient Volume

- Think quality-based reimbursement will improve patient outcomes
- Think quality-based reimbursement will not improve patient outcomes
- Are unsure

- One would hope that with improved attention/increased contact time there will be a decrease in all morbidity and mortality.”

- “Patient satisfaction has little to do with patient outcomes.”

- “Focus on quality in general improves outcomes, even if those outcomes are hard to measure.”

**Methodology:**

Invitations for the survey were emailed to a database totaling 88,680, which included physicians and CRNAs who have been placed by LocumTenens.com and those who have not. Respondents to all surveys were self-selected and spanned all 50 states and medical/surgical specialties. The survey yielded 2,963 respondents. The error range for this survey was +/- 3 percent at a 95 percent confidence level.

**About LocumTenens.com:**

LocumTenens.com is a full-service staffing firm serving physicians, CRNAs, NPs and PAs searching for locum tenens and permanent job opportunities, as well as healthcare facilities looking to solve employment shortages.
